

# DH-HAC-HFW1200TL

2MP HDCVI IR Bullet Camera

- \* The parameters and datasheets below can only be applied to 1200-S4 series.
- · Max 30fps@1080P
- · HD and SD output switchable
- · 3.6mm fixed lens (2.8mm, 6mm optional)
- · Max. IR length 40m, Smart R
- · IP67, DC12V

# **System Overview**

Experience 1080P full HD video and the simplicity of using existing cabling infrastructure with HDCVI. The Lite series 1080P HDCVI camera features a compact design and offers a high quality image at a friendly price. It offers various motorized/fixed lens models with a multi-language OSD and HD/SD switchable output. Its structural flexibility and high cost-performance makes the camera an ideal choice for SMB solutions.

#### **Functions**

#### 4 Signals over 1 Coaxial Cable

HDCVI technology supports 4 signals to be transmitted over 1 coaxial cable simultaneously, i.e. video, audio\*, data and power. Wal-way data transmission allows the HDCVI camera to interact with the XVR, such as sending control signal or triggering alarm. Moreover, the CVI technology supports PoC for construction flexibility.

\* Audio input is available for some models of HDCVI cameras

# **Long Distance Transmission**

HDCVI technology guarantees real-time transmission at long distance without any loss. It supports up to 8000 1080P)/1200m(720P) transmission via coaxial cable, and up to 3000 (1080P)/450m(720P) via UTP cable.\*

\*Actual results verified by real-scene testing in Deba's test laboratory.

# Simplicity

HDCVI technology inherits the born feature of simplicity from traditional analog surveillance system making itself a best choice for investment protection. HDCVI system can seamlessly upgrade the traditional analog system without replacing existing coaxial cabling. The plug and play approach enable full HD video surveillance without the hassle of configuring a network.

#### Smart IR

The camera's designed with microcrystalline LED IR illumination for best lowlight of formance. Smart IR is a technology to ensure brightness uniform in B/W image under low illumination. Dahua's unique Smart IR adjusts to the intensity of camera's infrared LEDs to compensate for the distance of an object, and prevents IR LEDs from overexposing images as the object come closer to the camera.

# Multi-formats

The capera supports multiple video formats including HDCVI, CVBS and other wo common HD analog formats in the market. The four formats can be witched over through OSD menu or by PFM820(UTC controller). This fewere makes the camera to be compatible with most end users' existing works.

#### Multi-language OSD

OSD menu provides multiple image adjustments and function settings to meet the requirements of different monitoring scenes. The OSD menu includes configurations such as backlight mode, day/night, white balance, privacy mask and motion detect. The camera supports 11 languages for OSD menu, namely, Chinese, English, French, German, Spanish, Portuguese, Italian, Japanese, Korean, Russian and Polish.

# Protection

The camera's outstanding reliability is unsurpassed due to its rugged design. The camera is protected against water and dust with IP67 ranking, making it suitable for indoor or outdoor environments.

With working temperature range of 40 °C to +60 °C (-40 °F to +140 °F), the camera is designed for extreme temperature environments.

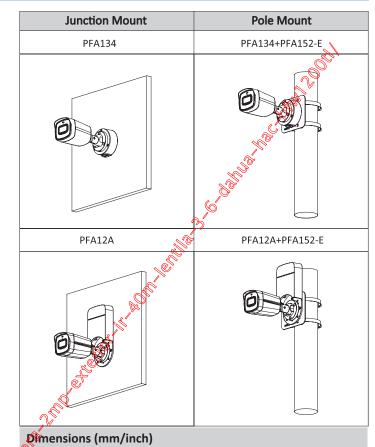

Supporting  $\pm 30\%$  input voltage tolerance, this camera suits even the most unstable power supply conditions. Its 4KV lightning rating provides protection against the camera and its structure from the effects of lightning.
